

ASSOCIATED ENGINEERING CONSULTANTS, INC.

Pavement Engineering and Design

The niche engineering field where exact design specifications and attention to detail are paramount. From soil testing to roadway design, pavement engineering affects nearly every aspect of our daily transportation lives. AEC's nationwide reputation for

Municipal and Urban Development

- Site Development
- Storm Water Management
- Soil Conservation
- Engineering Surveys
- Pavement Structural Sections
- Pipeline Design
- Flood Protection

Public Works

- Unparalleled Experience
- Proven Capability
- Federal/State/Local Projects
- Evaluation and Rehabilitation
- Rubberized Asphalt Pavements
- Design Tolerances
- Asphalt Technology
- Contracts

Private/Commercial/Industrial Pavements

- Contract Bidding Documents
- Base Preparation
- End Product Specifications
- Mix Design Parameters
